Results Screens

At the end of your run, you'll see a results screen showing how you did. In Arcade, Multiplayer Championship, Career and Freestyle Challenge game modes you will have a chance to save your progress.

Status Screen

Before resuming a saved game or after finishing an Arcade or Championship race, a status screen will appear showing your current standings, skill level, trophies, etc.

GAME MODES

ATV Academy

This introductory mode allows you to master basic and advanced ATV Quad Power Racing controls and techniques in the Training Stadium. It is recommended that even seasoned players start out here and we'll even give you a couple more quad bikes for your time.

Career

When you select Career mode for the first time you will be placed into the Amateur championship, so select the Amateur option. If you've played Career previously and have an existing Career game in progress you will be asked if you wish to Continue the game or start a New Game. Starting a New Game will clear away any previous progress.

CAREER PROGRESSION

In Career mode, you are aiming to develop a rider's skill level and attributes as you progress through harder tracks and unlock more tricks. There are three levels of career championship play: Amateur, Professional and SuperStar. Once you have completed the Amateur championship, you'll compete in

the Professional one, and so on, developing your rider's skill as you go. In order to complete any one of the championships you must place third or higher in the over all final results.

SCORING

To win a career championship, a rider must have the highest overall point total when all the races are completed. There are two ways to earn points in a race.

Race Points Different race position points are awarded at the end of each race depending on the order of finish.

Trick Points As in other modes you gain score for successful tricks. At the end of a race you are awarded points depending on the score ranking you obtain.

Your ranking after each race is a result of the combination of Race and Trick Points. These points are also cumulative through the championship so you are aiming to get first place and the best trick score on every race.

As you progress through this mode your rider's abilities will grow and you will be awarded new statistics. This all depends on how skillfully you drive, how you perform tricks, how aggressive you are and so on.

Winning a race also earns you a Gold Medal, which will unlock new Quad Bikes.

Single Race

Get a quick taste of ATV action on any available track. Additional tracks are unlocked through Arcade and Championship mode progression. The skill and difficulty of your racing competitors will be entirely dependant on your riders skill level. If you are a Newbie, you'll get a lot easier ride than if you're a Master.

Arcade

When you select Arcade mode, you will be asked if you wish to Continue a previously saved game or to start a New Game from the beginning. Highlight your choice and press the  button.

Arcade mode features a series of two-lap races. Riders compete on each available track against computer-controlled opponents. You'll have a certain amount of time to pass the various checkpoints in order to continue the run. Riders have to finish to progress to the next stage.

Freestyle

In Freestyle mode, it's all about pulling off insane tricks and getting high scores in the indoor stunt arena. Select a time limit and off you go, your imagination is your only restriction.

Challenge

There are two types of challenges, Ground Challenges and Tower Challenges. Complete the challenges in turn and earn gold to unlock each of the Superstar riders.

Time Trial

Race against the clock on any available track as you try to get the best track time. You can even race against your own best track time. If you want to you will be able to save your best lap times to race against on to your **memory card (8MB) (for PlayStation® 2)**. This save is separate to the normal game progress and records save.

Custom

Once you complete Career mode, you will earn the chance to create your own custom championship. First, you will get to choose your rider and bike. Second, the series of tracks you wish to race on and the number of laps. Third, the points system (number of trick vs. race points) and the difficulty level of your competitors. This mode can also be unlocked in Multiplayer mode.

Multiplayer

Two players compete head-to-head in multiplayer split screen mode. Select from Single Race, Head to Head, Championship and Freestyle Battle modes.

SINGLE RACE

Two players get their split-screen thing going for a single race on any open track with CPU racers.

HEAD TO HEAD

It's strictly one on one in a single race on your chosen track with no other quads competing.

CHAMPIONSHIP

Setup a complete season's worth of gritty ATV action as you compete one on one to see who brags and who lags.

FREESTYLE BATTLE

Indoor insanity reigns as you try to undo your opponent with outrageous stunts and vicious assaults.

Saving Games and New Records

As long as you have a **memory card** (8MB) (for PlayStation®2) in **MEMORY CARD** slot 1, ATV2 saves your important game progress and new records as you go through the game.

Your game progress is assigned to the Rider Profile you set up at the beginning of a race.

You can create up to 10 different Rider Profiles per **memory card**. A new profile can be created or overwritten by selecting the Profiles option in the Options Menu.
